

# Senior Healthcare Support Worker: Diagnostic Imaging Support

Level 3

21 Months Total Programme  
Length

## Apprenticeship Overview

The diagnostic imaging support pathway of this apprenticeship equips apprentices with the essential skills to conduct imaging procedures with an unwavering commitment to safety, quality, and patient wellbeing. Apprentices will learn about imaging equipment, differentiate between types of radiation, and ensure that patient care is optimised through procedural adherence.

This apprenticeship emphasises practical skills, critical thinking, and a patient-centred approach. Apprentices will become well-rounded healthcare support workers proficient in both the technical and compassionate aspects of patient imaging support, ready to take on enhanced roles and contribute to improved patient care within their healthcare role.

## Upon Successful Completion

- Senior Healthcare Support Worker Apprenticeship: Pass or Distinction
- Level 2 English and maths (if not exempt, flexibilities are available)
- Level 3 Diploma in Healthcare Support

## Progression Opportunities

- Further healthcare apprenticeships
- The Bridging Programme (Providing UCAS points)
