

Senior Healthcare Support Worker: Adult Nursing Support

Level 3

21 Months Total Programme
Length

Apprenticeship Overview

The adult nursing support pathway of this apprenticeship is tailored for individuals who are eager to deliver exceptional care to adults across a variety of settings, including community-based environments and hospitals. Under the supervision of registered nurses, apprentices will gain valuable hands-on experience in managing patient needs, from acute injuries to chronic conditions such as asthma, diabetes, cancer, heart disease, dementia, depression, stroke, or arthritis.

The programme recognises that many adults may live with multiple health issues simultaneously, and the training is structured to prepare workers to address these complex care requirements with sensitivity. Apprentices will not only elevate their clinical knowledge and understanding, but also enhance their capacity for compassionate care, positioning themselves for a rewarding career within the adult nursing sector.
